

MG XPOWER SV

■ ■ ■ ■ ■ DAVID KNOWLES

The MG XPower SV is the most recent in a long and distinguished line of sports cars from MG. Developed by a team under chief designer Peter Stevens, who is also responsible for the McLaren F1, the Ford V8-powered XPower SV has had a tortuous history that almost uniquely interweaves automotive aspects of the British, Italian and North American car industries. Written with the full cooperation of the MG team, this book tells the story of the car, against the background of the trials and tribulations of the various people and companies responsible for bankrolling it at each stage of its short but turbulent evolution.
